SUMMARY AUGUST 2026

During the month of August, the department responded to 61 calls for service and conducted 39 proactive policing activities. Officers also conducted 233 traffic stops, resulting in 166 citations, 67 warnings, and 26 court summonses.
The department took five case reports during the month. These reports involved arson, theft, prohibited use of a weapon, child abuse, and assault/domestic violence. One case, 26SP-2236 (Arson), remains pending further investigation.
Several previously filed cases remain active within the court system, with multiple court dates scheduled throughout September and October 2026.
With school now back in session, the department's priority focus will include maintaining a visible presence around school areas, school-related activities, and events to help promote safety and address traffic and other concerns. Officers will continue to maintain visibility and proactive patrols in other areas identified as having ongoing or increased activity or calls for service.

2026 AVIS Trend – January through August

Year-to-date AVIS activity has shown an upward trend through the first half of 2026, followed by a moderate decline during July and August. Activity began at 3,977 events in January and decreased to a year-low of 3,300 events in February. Activity then increased steadily, reaching 4,535 events in March, 5,213 events in May, and a year-to-date high of 6,173 events in June. Activity declined to 5,901 events in July and 4,386 events in August.

Despite the decline during the past two months, August activity remained above January levels, indicating that overall, AVIS activity continues to run higher than at the beginning of the year. Through August, the department recorded 37,377 total AVIS events.

The 10–14 MPH over the posted speed limit category continues to account for the largest portion of AVIS activity. This category recorded 2,739 events in January, increased to a peak of 4,247 events in June, and then declined to 2,599 events in August. The 15–19 MPH over category also showed an overall increase, rising from 819 events in January to 1,143 events in August. The 20–24 MPH over category increased from 257 events in January to 395 events in August, while the 25+ MPH over category increased from 162 events in January to 249 events in August.

Overall, the 2026 trend reflects increased AVIS activity from the beginning of the year through June, followed by a decline in July and August. While August activity decreased from the June peak, the data continues to show a significant level of speeding activity, particularly within the 10–14 MPH over category.
