

Cat Neuter Day

February 28, 2018

In an effort to help in the reduction of the feral cat population within our communities Eastern Colorado Veterinary Services will be offering cat neuters and vaccines by appointment at a discounted rate for one day.

The cost of a cat neuter
that day will be reduced to \$25 and
Vaccines, Rabies \$15.00 and Feline Leukemia \$18.50.

Unlike the Pet Overpopulation grant this is
an open enrollment event that is not dependent on personal income.
There is no limit on the number of male cats that can be done per client.

Dr. Leesa McCue
Eastern Colorado Veterinary Services
